

# Vaccine News for Autumn 2013: Schedule Your Shot Today!

## Influenza Vaccine & More!

The 2013-2014 influenza vaccine provides protection from 3 strains of influenza, including the H1N1. Our supply of influenza vaccine should be available after September 15<sup>th</sup>. Review the clinic schedule now to find a location near you. Don't delay. As always, there is no charge to Veterans for these vaccines.

Should you miss a scheduled vaccine clinic in your area, check the "Walk-In Options" schedule to the right for your clinic's scheduled "walk-in vaccine days."

## Pneumonia Vaccine

Generally speaking, all adults age 65 and over should receive the vaccine once. If you received this vaccine prior to age 65, you should wait a minimum of 5 years before receiving another one.

## Have questions?

We are here to help you stay healthy. If you have a question about what vaccines you should take or have other questions, talk with your primary care provider team. You can also come to one of the clinics and we'll gladly answer your questions.

### **Save Yourself A Trip!**

We invite you to come to one of our scheduled vaccine clinics to get influenza and pneumonia vaccine as needed. Remember this flyer is printed weeks in advance so we can get it to you early. Should there be any changes to the scheduled dates and times, the most up-to-date information will be posted to Walla Walla VA's website ([www.wallawalla.va.gov](http://www.wallawalla.va.gov)) and also on the My-HealthVet calendar.

You will find additional flyers available for pick up at our clinics and CBOCs.

### **Did You Get Vaccines Elsewhere?**

Tell us where and when you were given the vaccine and we'll add it to your VA medical record! Call the Vaccine Line (see number below) and follow the instructions.

We thank you for taking the time to give us your information.
